**Arnold M. Washton, Ph.D.**

Executive Director, Recovery Options  
New York, NY and Princeton, NJ

***Combining Pharmacotherapy with Psychotherapy  
of Addiction to Enhance Clinical Outcomes***

*This presentation will describe how various psychological interventions can be combined with medication to enhance clinical outcomes. Topics include: (a) the use of motivational interventions to enhance patient engagement and compliance with prescribed medication regimens; (b) the use of cognitive-behavioral interventions to enhance emotional regulation and coping skills; and, (c) the use of recovery-focused psychotherapy to address psychological and “self-medication” issues intertwined with addiction.*

**Louis Baxter, Sr., M.D.**

President of the American Society  
of Addiction Medicine

***Pharmacotherapy in Addiction Treatment***

*Dr. Baxter will discuss and present data regarding state of the art pharmacotherapies for addiction such as buprenorphine, naltrexone, and acamprosate and how they provide unprecedented opportunities for collaboration between addiction medicine physicians and nonmedical psychotherapists.*
